

Works Cited

The Works Cited page begins on a new page. Center the title "Works Cited" without underlining, bolding, or italicizing it. If there is only one entry, title this page "Work Cited."

The Works Cited page is a list of all the sources cited in your paper.

MLA now requires all sources to have a publication marker. For example, books receive the marker "Print" after the citation.

MLA no longer requires URLs in the Works Cited. Instead, you must write "Web" before the date of access in the entry. This serves as the entry's publication marker.

If a print source does not list a publisher and you can infer who the publisher is, place the publisher's name in brackets.
